Sightseeing flights!

A local private pilot, with many hundreds of hours' experience, will take us on sightseeing flights from Birrfeld in a 4-seater aircraft similar to the one above (we last did this with the Club in 1987).

Being in such a plane gives a much better view of the beautiful Swiss countryside than from an airliner and each flight will go where the passengers want. The plane is reserved for the whole day, but visibility and weather are usually better in the afternoon.

Cost: Around SFr 65 per person for a $\frac{3}{4}$ -hr trip (e.g. to the Lake of Lucerne) — less than half the normal, commercial cost. The Klingnau Stausee would take 20 mins, the Jungfrau 80 mins, and the cost would then vary accordingly.

Contact Trevor for more details: dury.lib@greenmail.ch or Tel. 056 245 65 86.

Please **register** by **22 August** with Trevor, indicating when and where you would prefer to fly (if important), so that we can make groups. The pilot should know by 1st September if the weather will make it not worthwhile flying.
