## MOSTEREI BRUNNER

Hauptstrasse 2, Steinmaur

'Season of mists and  
mellow fruit fullness...'

Keats could have been describing our present outing. Hopefully, we will avoid the mist for which this area of Zürich county is renowned!

An interesting and informative excursion awaits us, as a representative of this old established firm (1910) leads us through these fruit orchards in Wehntal. The orchards are principally apple and pear but other fruit trees are also represented. In addition to eating apples, the production converts the fruit into apple juice, cherry juice, Birnel and other delicious products.

The excursion will last approximately 1 1/2 - 2 hours with the time divided between the orchards and the 'Mosterei' (Cider press)

We meet at the above address in Steinmaur, where there is limited parking.
