MUSICAL INSTRUMENTS

It's a real treasure what Pius Bessire is going to show us.

Over the years he found and bought a huge variety of old and very old musical instruments.

Not only can he play them, he also has a lot to tell us about the instruments and their story.

We meet at his place. Coming from Villigen you drive past Schloss Böttstein and down the road. At the bottom of the road it's on the left with the blue shutters and the yellow flowers on them.

Afterwards we can go for a drink in the Burestübli.
