14.00h

OIL MILL + AXPORAMA EXHIBITION

BOETTSTEIN

In the 19th century there were more than twenty flour mills in the Bezirk Zurzach , but only 3-4 oil mills. One of them is in Böttstein and produced oil until 1957. **Ruedi Keller** is going to give us a short introduction to the production of oil in those days.

Entrance fee: 3.- Fr./Person

Just next to the mill is the very interesting exhibition of AXPORAMA. It starts with the fascinating ball path outside the building. The exhibition shows us different ways of producing and using energy, not only with pictures and words, but also with experimenting by the visitors.

We'll meet at 13.50 in front of the chapel of Schloss Böttstein.

Afterwards we can go for a drink in the Schloss Böttstein.
