## Walk along the Reuss

We meet at Gnadenthal carpark at 14.00h and walk along the Reuss until we come to Sulz, where a punt-ferry will transport us to the Fischbach side of the river. We then traverse the other bank heading back to Gnadenthal. As we approach the old monastery, we can view some of the rare plants which they now cultivate there. There are also ponds with unusual waterfowls.

At the end of the walk, we can have a drink, or a snack, at the newly re-opened, and extensively refurbished, restaurant in Gnadenthal.

This is an easy 2 1/2 hour walk with virtually no inclines, and much of it is through woods. For the thirsty or hot (hopefully)

there will possibly be an opportunity to slake one`s thirst at a little camping-ground Beiz in Sulz before crossing on the ferry. In which case, we would add 1/2 hour to the walk.

In the case of doubtful weather, contact Greta Brunnschweiler 056 441 32 67 the morning of the event.
