Industrial Heritage Trail

We will go for a walk on a part of the “Industrial Heritage Trail Limmat – Wasserschloss” from Baden to Wettingen. In addition to other historical buildings in Baden and Wettingen we will see buildings and vestiges of textile factories, power stations, metal-working and machine shops as well as important railway buildings.

It is an easy 2½ h walk through the City of Baden and along the Limmat to the Monastery of Wettingen. All the same good footgear is advisable. From Wettingen we go back to Baden by Bus. After the walk we can go for a drink.

We will meet at 13.00 on the Bahnhofplatz in Baden (near the Tourist Office)
