Rietbachstrasse 5, Schlieren

„Made in Switzerland“
has been a promise of
quality for Louis
Widmer since the
foundation of the
company in 1960.

Louis Widmer was fascinated by the largest human organ, which protects the body from mechanical, chemical and thermal effects and damage. He had dedicated his life to the skin. **And he never tested any products on animals.**

We're going to see the company on a tour of approx. 2 hours.
