Walk to the Chreisacher Tower (1½ h)

This tower was built in 2010 and, provided we have good weather conditions, the view is spectacular.

We meet at the Ampferhöhe. Take the road from Mönthal to Sulz. After Mönthal it climbs through a little forest and at its end there is a parking on your right and on your left. From there we walk to the tower. There is no bus connection to Ampferhöhe and in case transport is needed, please let me know.

Dear Members,

To be able to make interesting programs we need ideas for events. The committee of our club would therefore be very grateful for your support in this regard. It does not mean that you would have to organise the event but your ideas would help us. Thank you.
