Zofingen Town Visit

The picturesque old town of Zofingen is well worth a visit. .

The town was founded in 1201 by the counts of Frohburg and many historical buildings are now resplendent after renovation work in recent years.

We have been able to organise an English speaking guide to show us around.

We meet at the fountain at the railway station at 13.45. The tour starts at 14.00h and lasts one hour.

Try to combine transport with someone nearby or let me know if you need transport.
