Classic Car Collection Emil Frei

For me, the name Emil Frei was once the byword for British cars. In those days they were, as I am sure some will also remember, the importers for British Leyland. So the link is there, and in this collection you will see evidence of those days. They have also got Sir Winston Churchill's very own Landrover, a relic of his later years.

We meet our guide at the museum, which is at Bahnhofplatz 2, Safenwil and afterwards will as usual go for a drink and a chat. By public transport, the museum is a stone's throw from Safenwil railway station. The tour will be in English.
