Rega – behind the scenes

These red helicopters are familiar to us all. But have you ever wondered how it comes about that mountaineers get plucked from impossible rock faces and whisked off to safety?

Now is your chance to see what lies behind it all, and what it takes to run such a useful and extensive organisation, supported as it is only by private funding. We will be shown the operations centre, the maintenance workshop and hopefully an ambulance jet, as well as hearing a general talk.

We meet outside the Rega HQ at 17:30, Bimenzältenstrasse 87, Kloten, bus 736, a car park is available as from 17:00.

Afterwards we will as usual go for a drink and a chat. The tour will be in English.

For any questions, please contact David Smith,
056 424 1700/ bd.laubacher@gmail.com

There is no charge for the tour. Thank you,
Rega!
