The Aargauischer Bauernverband is organizing visits to farms in the region of Zurzach/ Surbtal. Five farms have been selected according to their production – milk, wine, vegetables etc. The detailed programme is not yet published – but last year, the visitors were transported free of charge by Postbus from farm to farm. At each farm a guided tour is available.

This is a special opportunity to see the inside workings of one of our most important industries.

As soon as I have the detailed programme I will send it by email.
