

Wednesday, 8<sup>th</sup> June 14.00h  
Organ building

Were you aware that there was a renowned organ-builder in Dietikon? I certainly would never have guessed, but the firm of Metzler is known in those circles throughout Europe, and has been practising the craft since 1890.

We will be told of the history of their activity and learn of and be shown the various stages in the production of an organ. Finally we will be led round the various workshops where we can see at first-hand how parts of these complex instruments are created by craftsmen of various disciplines.

We meet outside their premises at Zürcherstrasse 154 at 14:00. Parking is very limited. The Glanzenberg station, with its P+R, is 7 mins. walk away along Zürcherstrasse.

If in doubt you can contact Brigitte and David on 079 520 7306 We look forward to seeing you there. For any questions please contact David & Brigitte Smith,
