

Saturday 4th February 2023 13:45

Umweltarena Spreitenbach

When I first set eyes on this I thought that a UFO had arrived with a load of aliens! Now we have the chance to take a closer look inside. Come and join us in a review of our daily life in the light of how to husband our resources better – and to save money! We will also hear about

modern developments in building techniques which will enable us to save energy, and to reduce running costs.

We meet at the entrance to the Arena at 13:45. There is a specially designated car park, just follow the signs. By public transport you take bus no. 303 or 10 from Killwangen or Dietikon. Entrance costs Fr. 10.--

For any questions please contact David Smith,
